“BUILDING WHAT MATTERS IN QATAR”

About Company

About Bojamhoo

Bojamhoo Trading & Contracting Company. W.L.L (BTCC) was founded in 1978 to participate in the construction development of the State of Qatar and has since grown to become one of the leading local contracting companies. Most recently, BTCC has achieved ISO certifications (14001: 2004, 18001: 2007 & 9001: 2008)

The founder of BTCC was our late father, Issa Al Muhannadi: one of the most prominent and respected businessmen and philanthropists in the Gulf area. Since its conception, BTCC a grade “A” building contractor, has diversified business interests in the areas of trading and maintenance services. Along the way, BTCC has built an extensive professional network and nourishing relationships with key players in various industries and sectors, providing the capabilities to take on almost any project while working with well-renowned international consulting firms. Over the years, BTCC has successfully completed various prestigious projects for a diverse clientele including commercial buildings, residential complexes, medical facilities, shopping complexes, educational facilities, laboratories, and industrial projects such as substations, workshops, and military training facilities. BTCC’s infrastructure and resources include a large pool of technical manpower and well -equipped workshop facilities for carpentry and steel fabrication located in Al Shahenya including plant and tools. BTCC also has a large fleet of vehicles and machinery. BTCC is a registered contractor in various ministries and public entities including Hamad Medical Corporation, MMAF-PWA, Kahramaa, QEWC, Qatar Fuel [WOQOD], Qatar Foundation QNCC, Qatar Armed Forces, Private Engineering Office, QPMC, National Security Shield and American Air Base.

Our Vision

- 01

Vision

To consolidate and build upon our rich legacy, preserving the values, expertise, and reputation that have shaped our journey and defined our identity over the years.
- 02

Vision

To consistently uphold and strengthen a proven track record of excellence, distinction, and measurable success across every project, partnership, and commitment we undertake.
- 03

Vision

To position ourselves as the benchmark for reliability, integrity, and professionalism — earning the trust, recognition, and respect of leading consultants and valued clients throughout the region.

Our Mission

01

Mission

To predominate as a key national player in the fast-track construction sector, leading the industry with confidence, capability, and consistent performance.

02

Mission

To deliver comprehensive, world-class turnkey solutions that cover every phase of development, from concept and planning to execution and final delivery.

03

Mission

To prioritize and nurture lasting client relationships built on trust, transparency, and a deep commitment to exceeding expectations.

04

Mission

To consistently provide high-quality, efficient, and cost-effective services that ensure long-term value and sustainable success for our clients and partners.

The team

01

Bojamhoor recognizes that delivering exceptional projects requires an exceptional group of professionals from diverse backgrounds and levels of experience. Our team of architects, engineers, and project managers understand the everyday challenges of the construction industry. From the leadership to the design and maintenance team, we remain adept at prioritizing assignments required to complete any task. Our people deliver value to customers as ultimately customers bring growth - and growth equals opportunity for our people. Resourceful and reliable, Team Bojamhoor diligently adheres to Health & Safety standards, customer Policies, and mandatory government guidelines.

THE ORG CHART

ACCREDITATIONS

Bojamhoor Trading & Contracting is a fully registered and approved Main Contractor by the state authorities and governmental bodies in Qatar, Grade A contractor by Kahramaa, and by Qatar Civil Defence authority and is thus authorized to practice and execute major civil & infrastructure in Qatar.

Quality Management is a vital part of Bojamhoor's operations across various functions and departments.

Our ISO certifications demonstrate our commitment to international quality standards, superior workmanship, and client satisfaction.

All our diverse construction and design-build services in Qatar carry Bojamhoor's promise of innovative foresight and premium leadership.

We work with our clients from start to finish to make sure their vision is realized. Value engineering allows us to deliver quality projects with long-term value for clients.

Our Quality Management policy follows a methodical approach that commences in the preconstruction phase with detailed reviews on constructability and design. A consistent quality monitoring approach throughout the construction lifecycle helps us ensure timely project delivery and curb cost escalations.

Since 1978

we have successfully completed many Projects in the State of Qatar, in multiple sectors, including some of Qatar's most iconic and prestigious projects.
